Dear \_\_\_\_\_,

You may have noticed that \_\_\_\_\_ was late for work / school (circle one) today. That was our fault. Our highly popular Second Date Update segment went long and \_\_\_\_\_ was in the parking lot listening in their car.

Technically, they were at work / school (circle one) on time, they were just in the parking lot.

Perhaps you might want to consider moving the start of your workday / school day (circle one) until well after our Second Date Update segment has concluded.

Thank you for your consideration.

Sincerely,

**Hawkeye and Connected K**
